Important events to be reported:

BRK Financial Group informs the investors that we have completed all the steps associated with the project "*Listing structured products on regional markets*" and on Monday, 22.08.2022, the listing of the first series of products at the Wiener Borse and the start of liquidity operations on these certificates will take place.

We chose the Wiener Borse as the first targeted market, within the expansion process, due to the strong connectivity of the institutions of the Austrian market with the other regional markets and, implicitly, a simplification of the next phases of the project, respectively the listing of the products on the Hungarian and Polish markets. We aim to expand on these markets because of their size, where the certificate segment has a turnover between 2.5 and 11x compared to the similar segment at BVB, where BRK has been the leader of this segment in recent years.

Since 2012, BRK Financial Group is an issuer of structured products listed on the Bucharest Stock Exchange. The range of products offered includes turbo certificates with underlying stock indices (Dow Jones Industrial Average), commodities, local shares and international shares, as well as capital protected certificates with international shares and baskets of shares as underlying assets.
